

Your doctor has decided that you need PZA treatment. It is important for your health and the health of others that you take your medication as instructed every day. Please let the Immunization and Travel Clinic nurse or doctor know if you develop any of these symptoms:

- Fever
- General tired feeling
- Muscle aches
- Loss of appetite
- Abdominal pain
- Nausea and vomiting
- Dark urine
- Pale stools
- Allergic reaction

Before taking this drug, inform your physician if:

- You have a history of liver problems
- You have a history of gout
- You have diabetes
- You are pregnant or breastfeeding

Take your medication in the prescribed amount every day and return for follow-up visits.

If you are concerned about symptoms like those listed above,
please call: the Immunization and Travel Clinic at 333-2702.

Reference

2006 Up to date/drug information Pyrazinamide

If you are a registered University of Illinois student and you have questions or concerns,
or need to make an appointment, please call: **Dial-A-Nurse at 333-2700**

If you are concerned about any difference in your treatment plan and the information
in this handout, you are advised to contact your health care provider.
